LinkedIn Portfolio GitHub

Undergraduate in Computer Science with Artificial Intelligence at the National Institute of Business Management (NIBM), with a strong interest in Machine Learning and Cloud Computing. Experienced in developing academic projects using Python, data analysis, machine learning, web development, and databases. Currently seeking an internship opportunity to apply my technical skills, gain industry experience, and contribute to real-world projects.

Education

Higher National Diploma in Computer Science with Artificial Intelligence
National Institute of Business Management (NIBM) | 2026 – Present

Diploma in Computer Science with Artificial Intelligence
National Institute of Business Management (NIBM) | 2025 – 2026

Certificate in Computer Science with Artificial Intelligence
National Institute of Business Management (NIBM) | 2024

Skills

Programming Languages:

Python, Java, C , C++, JavaScript, HTML , CSS

Data & Machine Learning:

NumPy, Pandas, Scikit-learn

Databases:

MySQL, MongoDB, NoSQL

Tools: Git, GitHub, Jupyter Notebook, Visual Studio Code

Projects

Meteorite Classification & Analysis
Contributed to the development of a machine learning project and worked closely with the team on data preprocessing, analysis, and model evaluation, focusing on building classification models using real-world NASA meteorite data.

Telecom Customer Intelligence & Churn Prediction Platform

Developed an AI-powered telecom customer churn prediction platform to identify customers at risk of leaving using machine learning. Gained hands-on experience in machine learning, REST API development, and full-stack web development.
Technologies**: Python, XGBoost, FastAPI, Next.js**
